

The map displays the United States with county-level aviation categories. The legend indicates the following categories:

- VFR (Green)
- MVFR (Blue)
- IFR (Red)
- LIFR (Pink)

The map shows a high concentration of VFR (green) areas across the entire country. MVFR (blue) areas are primarily located in the northern and central regions, particularly in the Great Lakes and Mississippi River valleys. IFR (red) and LIFR (pink) areas are not visible on this map, likely due to the scale or the specific data source used.
