

The map displays the following aviation categories and flight levels across the United States:

- VFR (Green):** The majority of the landmass is categorized as VFR.
- MVFR (Blue):** Scattered patches are visible, notably in the Pacific Northwest, the Great Lakes region, and along the Gulf Coast.
- IFR (Red):** Very few areas are shown in red, indicating IFR conditions.
- LIFR (Pink):** No areas are shown in pink, indicating LIFR conditions.

Flight levels are labeled throughout the map, with 13000 being the most common. Other labeled levels include 10000, 5000, 3000, 2000, 1500, 1000, 500, and 000. The map also shows state boundaries and major geographical features like the Gulf of Mexico and the Atlantic Ocean.
