

This meteorological map displays sea level pressure (hPa) across the United Kingdom and surrounding areas. The color scale on the right ranges from 960 hPa (dark purple) to 1040 hPa (dark blue). The map shows a high-pressure system (1030-1035 hPa) over the North Sea, with pressure decreasing towards the southwest and south. Contour lines are labeled with values such as 1020, 1025, 1030, and 1035. The map also includes a grid of latitude and longitude lines, and a color bar on the right indicating the pressure scale in hPa.
