

This map displays the aviation categories across the United Kingdom, with a focus on the English Channel and surrounding regions. The categories are color-coded as follows:

- VFR (Green):** Visual Flight Rules, covering the majority of the landmass.
- MVFR (Blue):** Marginal Visual Flight Rules, primarily located in the English Channel and parts of the southeast.
- IFR (Red):** Instrument Flight Rules, appearing as small, isolated patches.
- LIFR (Pink):** Low Instrument Flight Rules, also appearing as small, isolated patches.

The map is overlaid with a grid of numerical values, likely representing flight levels or altitudes, ranging from 1000 to 13000. Major geographical features like the English Channel, the North Sea, and the coastlines of the UK are clearly delineated.
