

The map displays the contiguous United States with various aviation categories and numerical data points. The categories are defined in the legend:

- VFR (Green):** Visual Flight Rules, covering the majority of the land area.
- MVFR (Blue):** Marginal Visual Flight Rules, primarily located in the Northeast and parts of the Southeast.
- IFR (Red):** Instrument Flight Rules, appearing as small, isolated patches.
- LIFR (Pink):** Low Instrument Flight Rules, also appearing as small, isolated patches.

Numerical values are scattered across the map, often within the green VFR areas, representing specific altitudes or flight levels. These values range from 1000 to 13000. The map also shows state boundaries and the coastline.
