

The map displays the United Kingdom with its regional boundaries. Each region is labeled with a number representing its aviation category. The legend indicates that green represents VFR (Visual Flight Rules), blue represents MVFR (Marginal Visual Flight Rules), red represents IFR (Instrument Flight Rules), and pink represents LIFR (Low Instrument Flight Rules). The map shows a high density of VFR regions, with a few MVFR regions scattered throughout, particularly in the north and west. IFR and LIFR regions are not visible on this map.
