

The map displays the United Kingdom with various aviation categories indicated by colors. The legend in the bottom right corner defines the categories:

- VFR (Green)
- MVFR (Blue)
- IFR (Red)
- LIFR (Pink)

The map is overlaid with a grid of numerical values, likely representing visibility or altitude. The values range from 300 to 13000. The map shows a complex pattern of these values across the country, with some areas showing higher values (e.g., 13000) and others showing lower values (e.g., 300). The map also shows the coastline and major cities.
